School Psychologist – Hybrid Hello There Model

Description

The Hello Foundation is a progressive, fun-loving, student-focused company that provides high-quality service to students, districts, and families. **Unlike many other companies, we hire all of our school psychologists as employees with benefits, and we give you the choice of which district to work for.**

School districts come to The Hello Foundation searching for a school psychologist who can have a positive influence on their students and staff. We pride ourselves on consistently [providing what districts need, where and when they need it](#). We developed the *Hello There hybrid telepractice model* to give rural districts access to highly qualified providers and to allow our clinicians to deliver online services most of the month without losing the benefits that come from being in the building every so often.

[Our clinicians](#) have a few things in common: they're dedicated to kids, they're flexible, they're always learning, and they're ridiculously adventurous. If these describe you, then read on.

Responsibilities

You will perform all of the duties of a school psychologist utilizing a hybrid service model consisting of traditional in-person services and telepractice services. Responsibilities include, but are not limited to:

- Administering and interpreting tests to evaluate intellectual, academic, behavioral, adaptive and/or social/emotional behaviors.
- Observing referred students in school or community environments.
- Conducting referral and follow-up activities.
- Participating in educational planning, eligibility, and/or determination of placement meetings.
- Participating in the development of Individual Education Programs, as needed or requested.
- Conducting functional behavioral assessments, and participating in manifestation determination meetings and behavioral intervention development as needed or requested.
- Communicating and conferring with district/local education agency/agency personnel, parents and students.
- Conferring and consulting with staff and the student to determine the student's current level of performance or developmental history.
- Maintaining records, writing letters, answering correspondence, and writing reports.
- Participating in staff development activities and/or other meetings.
- Reviewing, evaluating, and recommending assessment instruments.
- Traveling to schools or other educational-based sites.
- Maintaining and submitting records to Supervisor on Program operations as requested.
- Performing other related duties delegated by the coordinator/supervisor
- Adhering to policies of the district and procedures of the department and/or section.
